## Financial support

Up to 15 scholarships are available for PhD students, postdoctoral fellows employed by, or affiliated to, an institution, organisation or legal entity which obtains a clear association to research. MSc students are NOT ELIGIBLE for scholarships but may attend the summer school.

Funds may cover your long-distance travel expenses up to 250 € in total based on invoices and a daily allowance rate of 100 € per a day for a maximum duration of 8 days. For further terms and conditions as well as instructions please see COST Vademecum, Sections 5 and 6.

This publication is based upon work from COST Action **Geothermal-DHC**, supported by COST (European Cooperation in Science and Technology).

## Selection of trainees for financial support will base on the following criteria:

1. Up to 15 trainees funded by scholarship
2. Country balance (at least 3 countries represented)
3. At least 4 trainees from ITC countries<sup>1</sup>
4. An average share of at least 40% of each gender, if possible
5. Background: Trainees from at least 3 different thematic groups (e.g. geologists, machine engineers, environmental specialists, social or economy sciences...)
6. Quality of proposed contributions by the trainee: presentation at student conference and planned student project
6. Institutional balance: We aim at one scholarship per institute, more than one scholarships will be granted in exceptional and well justified cases only

The evaluation of the applicants for scholarship support will be executed by the educational committee of Geothermal-DHC. The results will be delivered to the applicants before the 15<sup>th</sup> of June 2021.

## Disclaimer

The Geothermal-DHC Action MC reserves all rights to reduce the daily allowance rate in case of unforeseen circumstances. In this case, applicants will be informed about possible reductions prior to formal invitations via the eCOST system.
